Pacific Funds Fixed-Income Products Reach \$4 Billion Assets-Under-Management Milestone

NEWPORT BEACH, CALIF. (July 23, 2019) — Pacific Funds' fixed-income products recently surpassed the \$4 billion milestone for assets under management.

"Going over the \$4 billion mark reflects the hard work of our team as well as the value we believe our funds provide investors," said Dominic Nolan, senior managing director for Pacific Asset Management, which actively manages the six fixed-income funds. "In addition, this milestone underscores what we believe is the appeal of our investment strategies: committing to an active, disciplined process that focuses on fundamentals in selecting individual securities."

Pacific Funds also offers six U.S. equity and five multi-asset funds and has more than \$7 billion in total assets under management.

"Pacific Funds' differentiated approach to fixed income has resonated well with advisors and investors," said Douglas Jackson, vice president of Pacific Global Asset Management, which oversees product development and distribution of Pacific Funds. "Breaking the \$4 billion barrier in assets under management with our fixed-income funds is further proof of that."
